

## PRINTING - CUSTOM QUALITY REPRINT PRICES

Jan 2009

Custom enlargements for commercial, wedding and portrait work from OUR originals are all charged at the same rates listed below. There is NO wedding or portrait 'loading'.

Note that our negative film and digital work is intended to be cropped, manipulated, hand enlarged and spotted by the photographer, who understands what the final image is to look like, because the end product you have contracted us to produce, is the enlargement.

Unless otherwise requested or specified, custom prints will be made on Professional quality colour photographic material with a lustre surface. Please specify if you would like your colour photographs digitally converted to black and white, or if custom manipulation or enhancements of your photographs are required.

Prices are for professional grade enlarged, corrected and developed prints, cropped at our discretion and colour balanced. Sizes are approximate maximum, and may be trimmed to suit negative or paper shape for exact composition. For hi end digital imaging or manipulation, ask for details and costs.
